

Carbon Monoxide Alarms – Lights and Sounds

Green Flash LED every minute = *Power is ok*

Flashing Red LED with repeating series of four beeps = Full Alarm

Evacuate the property immediately and call the emergency services

All the Lights Flash once with one series of four beeps = Test Signal

Yellow LED flashes once every minute with one beep = Low Battery

Yellow LED flashes once every minute with two beeps = General Fault

ALWAYS read the ENTIRE handbook and keep it in a safe place – where you can find it!!

ALWAYS make sure you understand the lights and sounds.
